My love for computer science began midway through middle school and has only grown since. From a mixture of both self-teaching and classroom experience I am now an avid Java, Javascript, and developer and familiar with Android development. I love to face challenges and adapt to new problems faced, learning to use new tools along the way. I am excited to be apart of the Make School community, confident in his ability to exit as a exceptional web developer.

SKILLS

Web Development

HTML CSS Javascript Node.js React Express Atom

Python Development

Python Flask Scripting PyCharm

C++ Development

C++ Visual Studio

Java Development

Java SE 8 JavaFX Desktop Apps Intellij IDEA

Android Development

Java Android Mobile Android Studio
